- It cannot be easily destroyed and neither does it fall a prey to roughness or corrosion.
- Application -: Wall top fencing, ground fence free standing in thermal projects, airports, borders, industrial estates, tea-gardens etc.

SPECIFICATIONS

Wire Specifications:

Diameter : 2.59 MM - 3.50 mm

Tensile Strength of Wire : High tensile carbon wire with UTS 1670 N/mm² confirming to IS 4454/Part 1/Grade - SM or SS 304 grade wire or SS 316 wire

Galvanization: Duly hot dipped galvanized

Coating: Heavy zinc coating with minimum 230 gms per sqm or SS 304 wire or SS 316 Wire

Razor Punched Tape Specifications:

Galvanization : Galvanized steel strip As per I.S 513 or D.D Grade 2004

Coating : Medium zinc coating with minimum 120 gms per sqm or SS 304 Strip

Coil Specifications:

Coil Diameter : 450mm (18")/ 600mm (24")/ 740mm (30")/ 900mm (36")/ 1050mm (40")

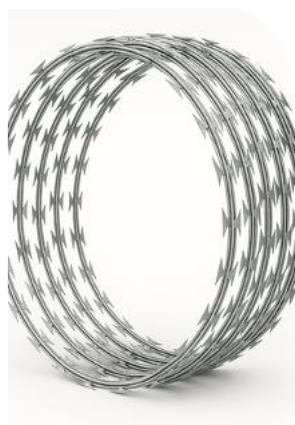

Spiral Turns per coil : 50 or 51

Stretch Length : 6metres

**Other Standard Coil diameters are 630mm 800mm, 1000mm.

**Available In all blade sizes and can be customized as per requirement.

FORM

GALVANIZED

IS 158 BLACK COATED

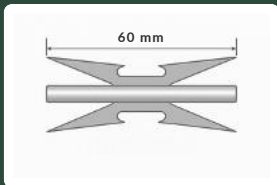

POWDER COATED

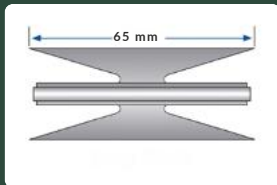

STAINLESS STEEL {SS 304}

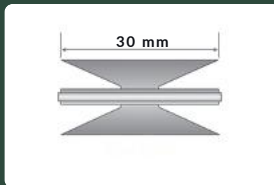

BLADE TYPES

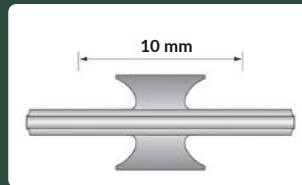

FISH HOOK BLADE

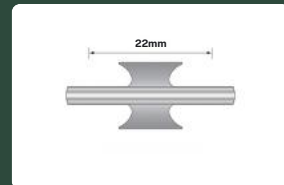

LONG BLADE

TEAR BLADE

SHORT BLADE

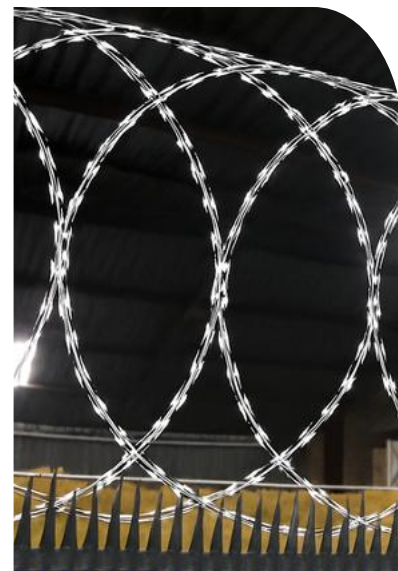

MEDIUM BLADE
